Will Miami Get Frozen Out of the Playoffs?

Dolphins vs Chiefs

Arrowhead Stadium, Kansas City - 1:00PM

Let it snow! Let it snow! Game temperature today will be a high of 10 degrees

The Playoff formula is simple: Win out and you win the division. Any other formula to get in to the playoffs was lost when Baltimore won

last night as the Ravens locked up at least a Wildcard spot. The only way the Miami Dolphins can get into the post season is to win today in Kansas City and win next week in NY. Today the weather will be a factor as the game high is forecasted to be 10 degrees and there will be snow. Many experts expect the south Florida team to struggle in the bad weather and the Chiefs are playing well as of late. Is this the week that Miami's season folds? Or is this a week when Miami further stakes it claim to the division title and sets up a season ending showdown against the NY Jets next week. One thing is for sure, there are no easy wins in the NFL and if Miami wants to be a championship team they have to be able to win these kinds of games.
