Brian Hartline sets a team record for yards in a game in the OT loss The Miami Dolphins showed up in a big way and in many ways on Sunday. This past week on this site I called out several areas of need for this team to win. Well this week those areas showed up. QB, Wide Receiver, Pass Rush, Pass Defense, all stepped up with big efforts and impressive plays. But in the end the result was a heartbreaking overtime loss that left you feeling like "wow...we should have won this game". Although Rookie QB Ryan Tannehill finally showed he is capable of producing at the pro level it was two costly mistakes down the stretch that allowed the Cardinals to steal the game.
